## THE COMPANY BIOGRAPHY

Southern Graces® is a full-service event firm, catering off-site to fulfill any whim for every client! Our services include our indulgent catering, delicious floral design, fabulous rentals, intricate planning, elaborate lighting, & relentless entertainment options.

## WE DO IT ALL

The most stressful part of planning an event? Hands down, our clients tell us it's juggling multiple vendors—even scheduling initial consultations with 5+ different vendors is a huge headache and time zapper.

We know you have a life that must go on, even while you're planning your big event. The last thing you need is to waste your time playing phone/email tag with vendors, who have their own agendas, values, and styles. How in the world is that supposed to come together in one cohesive and seamlessly executed event?

When we started as a catering company, we saw your struggles. Years ago, we arrived at an event, raring to go, only to find no tables for guests. We pulled some strings and got those tables, even though that wasn't our role back then. Never again, we vowed.

Southern Graces grew into a full-service event production company to meet your needs, to provide a solution to the hassles and pitfalls of hiring multiple vendors for one event. Relax...you've found the perfect fit—planning, floral, event design, and catering for weddings, corporate, and social events.

## THE SOUTHERN GRACES STORY

Our story began in 2002, when Bethany Boles Hewitt founded Southern Graces. Bethany likes to say she accidentally started a business when she agreed to help a friend throw a small Halloween bash. She didn't have a formal plan back then, just a passion and talent for bringing people together through fabulous food, flowers, and parties.

One small party was all it took, and soon party guests were reaching out to book her services, including one fresh-faced start-up that we all now know as HGTV, or Home and Garden Television.

Although Southern Graces has its roots in catering, it quickly grew into a full-service event planning and design company. It pained Bethany and her team to see so many events not coming together as clients had hoped all because items fell through the cracks with multiple vendors. She wanted to ensure that a client's wishes were met, all by one team with a common vision, values, and goals—and the full-service Southern Graces team was born.

And what's a good story without a little romance? In 2005, Bethany went to an International Catering conference in Las Vegas and met the very dapper gentleman chef, Christopher Hewitt. Proof that what happens in Vegas doesn't ALWAYS stay in Vegas, the miles between Tennessee and NYC couldn't keep these two apart. After two years and plenty of trips back and forth, this dynamic couple was engaged and well on their way to the next level in both their personal and professional lives.

## THE SOUTHERN GRACES STORY

In 2008, Executive Chef Christopher Hewitt, now Bethany's husband, joined the Southern Graces team. Christopher's extraordinary culinary career includes remarkable successes, including running Bobby Flay's Mesa Grill in Manhattan, preparing dinner for Julia Childs, and being on Iron Chef, among others. They've made the Lowcountry their home for the past 12 years and continue to infuse hospitality into everything they do and push what's possible when creating some of the Southeast's most spectacular bashes.

Southern Graces events include intimate gatherings for family and dear friends, seamless celebrations of love, and daring corporate events for thousands. Our event credits include the reception for The Lord Bishop of London, the CMT Awards, Food Network's Making It Easy Cookbook Series, and the launch of Porsche 911, just to name a few.

He has claimed an Iron Chef Victory, as well as First Place in the Professional Cooking Competition for the Georgia Wild Shrimp Association.

## LUXURY FOOD STATIONS

Food stations are our take on a Gourmet Buffet, presented in multiple stations to help control your guests' waiting in a line, and also to encourage everyone to enjoy comfortable, yet sophisticated food. Our food stations are beautifully presented, like art – so that you will eat with your eyes before you ever even taste a bite. We suggest selecting one from each of the three savory sections listed (Garden, Land, & Sea) as a starting point for a well-rounded menu for you and your guests.
